Cost estimate / declaration of consent for SpineMED® therapy

Name/first name		I	Date of birth	
diagnosis				
Herewith I wish for me, and/or for the treatment of my cervical or lumbar spine complaints with the SpineMed® decompression procedure.				
The treatment is expected to last 15-20 sessions of 30 minutes each.				
Even though we have received many subjectively successful therapy feedbacks and can even refer to MRI post-controlled regressions and total remissions of disc protrusions and prolapses after treatment, we cannot guarantee these. Especially if nerves are already irritated in advance, side effects such as an initial aggravation, pain and irritation can occasionally occur				
I have been informed by my doctor about the sense and purpose of my intended treatment with SpineMED® decompression and alternative treatment options. The therapy chosen by me is carried out at my express request and does not represent a statutory health insurance benefit. The amount of the reimbursement by private health insurances or benefits depends on the chosen insurance tariff and individually agreed conditions. It cannot be guaranteed either, since the SpineMED® procedure was not yet anchored in the 1996 scale of charges and is therefore billed using so-called "analogous figures". This was pointed out to me personally before the start of the treatment. I bear the resulting costs myself.				
For the SpineMED® treatment, the following medical fee is charged according to the GOÄ (german fee schedule for doctors) and is due upon receipt of the invoice or interim invoice:				
GOÄ fee	service description		factor amount	
516 analog	Treatment with incline		1,800 € 6,82	
652 analog 538 <i>if used</i>	Computer controlled, of Infrared heat, if used (conservative dynamic spinal decompression lumbar spine only)	$\begin{array}{c} 2,300 \in 59,66 \\ 1,800 \in 4,20 \end{array}$	
	Invoice amount (per	single treatment):	€ 70,68	
A detailed invoice with all treatment data will be issued after completion of the treatment or, if desired, as an additional interim invoice after half of the treatments. It is possible to inspect the GOÄ fee schedule at the registration desk.
